Acting Head Teacher: Mrs Clare Howells

Friday 5th November 2021

Dear Parents and Carers,

A huge welcome back to the Autumn 2 term! It's wonderful to see the children's smiling faces back in school after a week off and all children have worked incredibly hard, across all year groups.

I am writing to inform you about an update on the Mathematics curriculum page on the school website. The children are exposed to a range of methods in Maths lessons at St Joseph's, and in addition to this, have the opportunities to problem solve every day through the use of 'Deepen it' activities. Furthermore, children will sometimes be set Maths homework on a Friday, specifically focusing on the learning outcomes for that week. On this curriculum page, you will see there have been some uploaded resources to support you with the methods to use at home, similarly to the ones we use in school.

My hope is that you will find these both helpful and informative when supporting your child with their Maths activities at home. I will also continue to update these at the each of each term.

If you have any questions, please don't hesitate to ask me.

Yours sincerely

Miss Natalie Jones
Maths Subject Lead
