Acting Headteacher: Mrs Clare Howells

28th March 2022

Dear parent/carers

We have an exciting opportunity to potentially offer two new after school clubs. These after school clubs are provided by a company called MiCreation, with a member of our staff facilitating it. There is a cost involved in these clubs so before we sign up to deliver them, we would like to check whether they would be something that the children are interested in taking part in.

Lego Club - Kids with Bricks (Years 2-6)

This after school club provides a great opportunity for children to explore the learning potential of Lego while learning to work and play together. Each term there is a structured scheme of work and weekly videos to kickstart the children's imagination. The children also get to compete in our

nationwide weekly competition to see which school has the best creative builders in Britain! The children will have a large 30 litre tub filled to the brim with more than 5000 bricks and blocks as well as wheels, figures and other resources such as certificates and stickers for free. The club runs for an hour after school once a week and the cost to parents/carers is £4.80 (approx) per child per session, this is paid for half termly in advance online. I have included a link to give you an idea about what the sessions would be like at Kids with Bricks Lego Club:

<https://youtu.be/tkf6OmPBH44> This was taken from the Rainforest theme (last term), the quick build as you may see was an orangutan. The children use the video as an example, but use their artistic licence to create their own version.

Minecraft Club - My little Pad (Years 3-6)

In this after school club, each week we start with a quick build competition based on the term's theme. The students have great fun coming up with their quick creations and choosing who should be the winner from the club. The club runs for an hour after school once a week and is £3.99 per session, paid termly in advance online. I have included a video below which was this term's inspiration for the children's building <http://www.milittlepad.com/> Please note - For this activity, children will need to bring their own ipad/tablet to school - we will provide the Minecraft creative codes and install these on the devices.

If your child would be interested in attending either of these clubs, please complete the form below and return to the school office by **Friday 1st April 2022**. Once we know how many children are interested, we will be in contact again to let you know the days that they will be running and confirm prices.

Yours sincerely

Paula Freckleton
Pastoral Lead

My child _____ would be interested in signing up for the following club/s

Lego Club

Minecraft Club
