- Properties of shapes

### As Leaders of Faith we will...

- Learn about Creation.
- Describe psalms.
- Recognise the church.
- Know our school prayers.

### To be healthy we will...

- Take part in functional movement, rugby, basketball and netball.

### As Writers we will...

- Learn and retell the story of 'Brown Bear, Brown Bear'
- Read and write sound and words through phonic activities.
- Listen to weekly focused texts.

### As Geographers we will...

- Identify the location of my school, home and city using maps
- Use aerial/ satellite photos to recognise familiar features
- Identify key human and physical features of familiar places
- Understand and recognise the difference between human and physical geographical features
- Begin to use simple locational and compass directions to describe features and routes to find them
- Observe and describe some geographical similarities and differences between familiar places
- Begin to express opinions on the features of the local environment
- Draw own maps and use symbols in a key

### As Scientists we will...

- Observe changes across the 4 seasons
- Learn about the signs of Autumn by going on an Autumn walk in the field
- Observe and describe weather associated with Autumn and how the day length changes
- Talk about what we see, touch, smell, taste and hear during Autumn
- Write a poem about Autumn

### To be resilient, empathetic, ambitious and confident we will...

- Think about why we are important to God and what the kingdom of God is
- Learn the school prayers
- Read the story let the children come and discuss it.
- Have sessions on important values such as kindness, empathy, resilience, sharing, honesty, politeness, confidence and more.
